Mission to China

Explore the deep connection between China and Oregon.

- HEAR from Oregon companies doing business in the world's largest emerging consumer market.
- VISIT a manufacturing plant owned by a global corporation based in Oregon.
- SEE how our region's sustainability values have been exported to China.
- LEARN how footwear and other products are produced in China and shipped world-wide.
- TOUR the Port of Shanghai and develop a greater understanding of one of the Port of Portland's important trade partners.

Most days will be filled with business-related activities, but there will be several opportunities to experience the Chinese culture and see some sites. Special tours will be arranged for spouses or guests. *Space is limited, register early!*

Questions?
Contact Hong Mautz at 503.679.2060.
