

# Mission to Germany

Explore Oregon's deep economic connection with Germany!

- **HEAR** from Oregon companies doing business in the world's 4th largest economy.
- **VISIT** a plant owned by a global corporation exporting raw materials to Oregon for manufacturing.
- **SEE** how Oregon's apparel and footwear cluster supports global brands.
- **LEARN** how the long-standing relationship between the Oregon University System and Germany is deepening economic ties.
- **TOUR** German parent companies that support thousands of Oregon jobs and learn about how Oregon workers drive global sales.

Most days will be filled with business-related activities, but there will be several opportunities to experience the German culture and see some sites. Special tours will be arranged for spouses or guests.

**Space is limited, register by November 30!**
